VENDOR NAME: SBC SNET | **FEIN: 06-054-26-46**

SERVICE/PRODUCT NAME: Local Exchange Service: Centrex ISDN (2B+D) – DCOSS ISDN, CentraLink 2100/3100 Custom ISDN

SERVICE/PRODUCT DESCRIPTION:

Centrex ISDN (2B+D)
Centrex is an office telecommunications switching system for businesses that uses a separate dedicated line between each telephone at your premises and the switching equipment at the SBC SNET central office. Station lines may be either analog or digital (using ISDN technology).

The SBC SNET central office switching equipment provides all of the Centrex functionality, such as routing and connecting internal station to station calls, directing incoming phone calls to the appropriate station, handling direct dialing of outbound calls, and providing a wide variety of PBX-like service features. Unlike a PBX, however, Centrex provides full, unimpeded access to the public network to every station line. And, as an integral part of SBC SNET's network, Centrex service takes advantage of extensive central processor capability and distributed processor technology that minimizes down time and constant technological upgrades.

SBC SNET's Centrex offerings include ISDN (2B+D) Service under Dedicated Central Office Switched Service (DCOSS), CentraLink 2100 and CentraLink 3100. As part of our Centrex Services, we also provide centralized voice mail under GEM Mail service. For additional feature information please refer to the Product Schedule for Local Exchange Service: Centrex Service.

SERVICE AVAILABILITY/LIMITATIONS:

AVAILABILITY
See Service Availability spreadsheet

LIMITATIONS

1. Centex ISDN quoted under DCOSS is Custom ISDN used for voice applications only.   2B+D uses 2 stations per pipe

Service Disconnection / Reference of Calls
1. There is no charge for reference of calls for the disconnect of the main listed number. This applies to local exchange, DID, CentraLink and DCOSS accounts.

2. Under DCOSS, a customized spare number intercept is set up in the Central Office at no charge as the default for DCOSS stations not in use.

3. Reference of Calls on individual DID numbers is chargeable under a Special Network request. Under this arrangement, the standard interval for reference of calls is currently three months.
